

July 2011

To whom it may concern,

I've had the extreme pleasure to work with Kelly Masters for over 6 years. We've worked together on many advertising campaigns and she knows what works!

Whether it's developing a client campaign or strengthening an image, Kelly has an open ear and can quickly "see" what can and should be done.

Her forward thinking helps clients see what she sees. Her communication skills let you know she's committed to a project and excited for your success.

Whether it's creating a website, a webinar, a radio or TV campaign, Kelly can do it. She's one of those great idea people that you work with, and after a short time you say, 'Why didn't I meet you years ago?'

Kelly Masters is the consummate professional who will work hard for *your* success.

If you need to contact me for any reason please don't hesitate, 734-748-9412.
